

Dell Computers From SBBS

SBBS is a Dell Reseller. As an SBBS customer, you will be entitled to purchase hardware and software at SBBS' cost. In most cases, Dell will charge your credit card directly utilizing SBBS' discounted pricing. **SBBS DOES NOT sell Dell equipment WITHOUT configuration.**

All hardware is shipped to SBBS' office for configuration and then forwarded to customer.

Dell Computer Configuration - \$100 Per Machine (\$75 For SBBS' Bundled Services Customers)

With SBBS's Dell Computer Configuration, we will "burn in" your machine and ensure the machine is ready to go out of the box. This service includes the following:

- Verify ALL Components Are Working Properly When Received
- Install the Latest Windows XP and Microsoft Office XP Patches
- Configure Windows XP & Microsoft Office
- Configure Wireless Card/Hot Spot Setup (If Applicable)

SBBS Will Install The Following Software Packages (If Applicable):

- Adobe Reader, AOL Instant Messenger, AOL (Current Version), Winzip, PPT Viewer, ZapThatVirus

All Programs Installed Will Be Patched With Latest Updates/Patches Available.

Ghost Backup Option

SBBS highly recommends each new machine is ghosted. What ghosting does is create an image of the hard drive to allow the machine to be quickly restored in the event of a hard drive crash or virus situation. Ghost 9.0 Software & License INCLUDED.

Before Image – Performed BEFORE any non-factory installed software is installed by SBBS but AFTER patches/machine setup.

After Image – Performed AFTER all software & configurations are performed by SBBS.

- \$125 Per Machine - Includes Set Of Ghost CD's

**Protect Your Investment
With A Ghost Image**
